MADHUBUN®

MADHUBUN® EDUCATIONAL BOOKS

Founded in 1976...

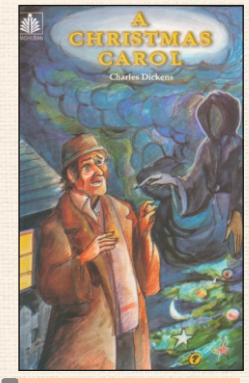

...is a prominent school textbook publisher focusing on activity-oriented and syllabus-based books. With nearly 1000 active titles in the K-12 segment, innovation and strong authorship are the hallmarks of Madhubun's line of school textbooks. At Madhubun, commitment to learning is a byword. Since its inception, the organisation has kept pace with the ever changing and growing academic needs of schools.

Our unwavering love for children and the desire to produce the best learning tools for them forms the core of our publishing programme. Our commitment to contribute to their lives and growing years stems from this love and care. Through hundreds of books, we at Madhubun look at the complete process of teaching-learning and aim to keep alive the curiosity and energy of young minds. Our books give learners the opportunity to understand, enhance and enjoy their learning. They help the facilitator to experience teaching in a simple hands-on manner.

Our sales team and customer care division provide support in reaching out to thousands of schools across the country and abroad. There is also a dedicated training team that conducts facilitator training workshops across the country. This team is equally supported in its zeal by authors who also conduct workshops and share academic information.

Team Madhubun is experienced, passionate and committed to publishing the best for children. We boast of creating books based on correct publishing ethics and aimed at opening a new world of learning both for the learner as well as the facilitator.

ZEN
We Can Learn

An Integrated Holistic Curriculum

Zen: We Can Learn is an integrated curriculum product that offers a comprehensive and cohesive teaching, learning and assessment solution for your school.

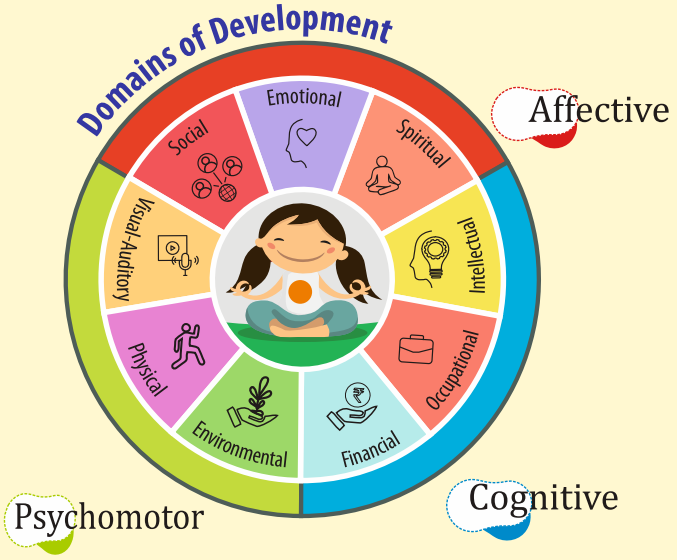

Designed for the Foundational and Preparatory stages in line with the recommendations in the NCF-SE 2023, Zen: We Can Learn offers easy-to-use, interesting and innovative ways to ensure the holistic development of learners.

Being HOLISTIC

This series adopts a progressive, inclusive and transformative approach to learning. The foundation of this integrated approach is HOLISTIC:

H	Harmonious	age-appropriate language and content to align the mind, body and learning environment
O	Outcome-oriented	clearly defined milestones to identify where the learners are and where they need to be
L	Learners first	rubrics designed in a way that is comprehensible to the learners
I	Inclusive	activities designed to ensure no type of learner is left behind
S	Skill based	focus on all aspects of learning—knowledge, capacities, values and disposition
T	Technology-friendly	technology that connects physical to digital (phygital)
I	Interdisciplinary	projects and activities that assess competencies for all subjects
C	Competency-based	learning achievements clearly defined for each stage (foundational and preparatory)

Learning with HOPE

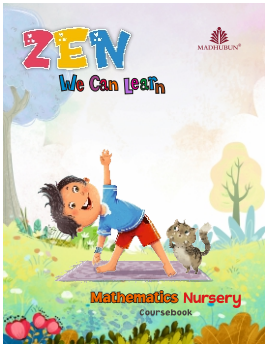

The wheel of hope is based on the principles of *Panchakosha Vikas* and is aligned to the three domains of learning. In this offering, the content is mapped to these three domains to develop multiple intelligences in learners.

Wings of Wonder

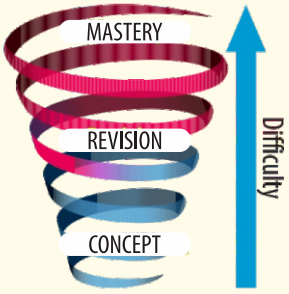

An Integrated Theme-Based Course

AS PER NCF 2022 FOUNDATIONAL STAGE

Wings of Wonder is an Early Childhood Care and Education (ECCE) curriculum that offers opportunities for holistic learning and growth.

Based on the National Curriculum Framework (NCF 2022) for the Foundational Stage, this series addresses children's developmental needs, providing a more enabling learning environment through structured play.

The course adopts the spiral approach of learning, where concepts are introduced at a simplified level first and then revisited at progressively complex levels.

The series aims to develop:

- **W** Willingness to Learn
- **I** Intuition and Imagination
- **N** Nurturing Tendency
- **G** Generosity
- **S** Sociability and Spontaneity

The series encapsulates the guiding principles of NCF 2022 and is aligned to the holistic Indian vision of education in consonance with the tradition of ***Panchakosha Vikas***.

New VOICES Revised
A Multi-Skill Course in ENGLISH

Classes 1 to 8

AS PER NCF 2022 FOUNDATIONAL STAGE

AS PER NEP 2020

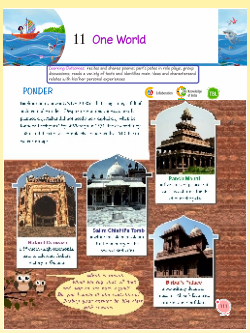

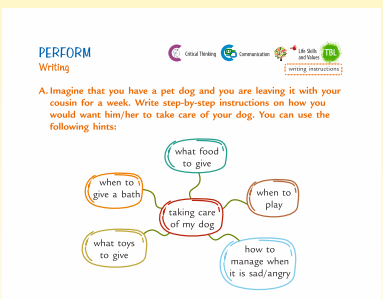

New Voices Revised is a series of English coursebooks, workbooks and literature readers for classes 1 to 8, and is aligned to the syllabus outlined by the CBSE. The series is crafted for learners of today, for whom it is of foremost importance to learn how to learn. The use of graphic organisers, timelines and graphic retelling of stories in New Voices Revised helps develop critical thinking and study skills in learners—two vital tools for learning. Additionally, the delivery of emotionally competent stimuli helps build a strong foundation for learning.

The series guides learners through the seven stages of a brain-based approach to learning. Here is a preview of the various stages the learners are taken through in each chapter:

KEY FEATURES

- **Ponder** aids the learners in pre-acquisition of concepts by setting the context, while preparing them to read the text with the aid of the glossary and in-text questions.

- **Perfect** aids memory encoding through drilling of vocabulary and grammar topics. It helps with incubation of concepts.
- **Perform** functions as a confidence check for learners and ensures verification of their performative skills. This stage of summing up allows a functional integration of acquired concepts, leading to a celebration of learning.

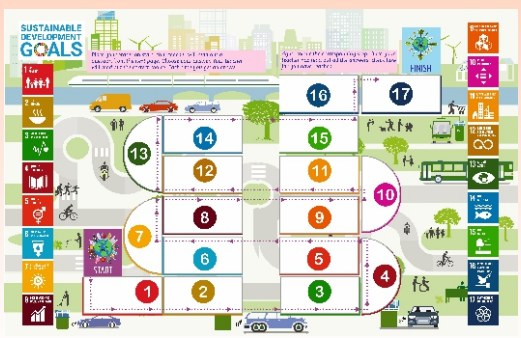

- **Prepare** immerses the learners into the context and initiates holistic learning. It helps in the acquisition of newer perspectives through task-based activities.
- **Practise** lays out the canvas for the stage of elaboration, in which the learners analyse and evaluate the text while applying their understanding of it.

समर्थ संस्कृतम्

भाग 1-5

- Text
- Workbook
- Grammar

संस्कृत पाठमाला समर्थ-संस्कृतम् Text+Workbook + Grammar का मिला-जुला रूप है। इसके पाँच भाग हैं। प्रत्येक पुस्तक Textbook और Workbook तो है ही, इनमें पाठ्यक्रम के अनुरूप व्यावहारिक व्याकरण सम्मिलित किया गया है इसलिए व्याकरण की किताब भी है। इस शृंखला की विषयवस्तु में पारंपरिकता और आधुनिकता का संतुलित समावेश है।

सीखने की संप्राप्ति (Learning Outcomes) का सुनियोजित समावेशन

शृंखला की प्रमुख विशेषताएँ—

- इस शृंखला में साहित्य की विविध विधाओं (कविता, कहानी, संवाद, पत्र, एकांकी, हास्यकथा, श्लोक, सूक्तियाँ चित्रकथा... आदि) का समावेश किया गया है।
- इस शृंखला का उपयोग कक्षा चार से संस्कृत के पठन-पाठन के लिए भी किया जा सकता है और कक्षा पाँच से भी।
- व्याकरण का अनावश्यक विस्तार न करते हुए संतुलित एवं सारगर्भित रूप दिया गया है।
- प्रश्न-निर्माण में विविधता का समावेश किया गया है। पाठ-बोध संबंधी प्रश्न, व्याकरण संबंधी प्रश्न, चित्र देखकर लिखना आदि कई तरह के प्रश्न शामिल किए गए हैं।
- Text + Workbook + Grammar के रूप में होने से यह शृंखला छात्रों के बस्ते का बोझ कम करने के उद्देश्य पर खरी उतरती है।
- विषय-वस्तु में भाषा-ज्ञान की सुदृढ़ता पर बल दिया गया है।
- कंप्यूटर-उपयोग संबंधी रचनात्मक गतिविधियाँ शामिल की गई हैं।

MATHS POiNT

A textbook series for ICSE

Classes 1 to 5

Mathematics is both ubiquitous and universal. There is mathematics in everything that we do and see. Mathematics and numeracy thus give us the fundamental ideas and tools required to think about the world around us and the world beyond us.The goal of this book is indeed to bring to life these aspects of mathematics.

Competency-based questions are given in a booklet that prepares the learner to be future ready.

Maths Point follows the five-step learning process called *Panchpadi* as laid out in the NCF-FS 2022 and NCFSE 2023. The features of the book align well with this process as described below.

Aditi (Introduction)	Bodh (Conceptual Understanding)	Abhyas (Practice)	Prayog (Application)	Prasar (Expansion)	Rachna (Creation)

Targeting Mathematics is a graded series of 8 books for Grades 1 to 8. The books are in line with the latest NEP and follow the guidelines laid by the NCF 2023 for school education. The series follows the five-step learning process, *Panchpadi*+ to formulate the sequence of teaching and learning as guided by the NCFSE 2023 and NEP 2020.

KEY FEATURES

- The series targets to spark the learners' imagination to visualise abstract mathematical concepts with the help of **suitably illustrated examples**
- The series aims to relate each **concept to everyday life** and to develop a spirit of curiosity and discovery
- Aims to acknowledge and understand a variety of learning styles and individual learning methods through **Group/lab activities, Projects, Crosswords, Riddles, etc.**
- Targeting Mathematics encourages an **integrated approach** to teaching-learning, to help the students see meaningful linkages within and across various subject areas
- The books help learner to **reason logically, communicate mathematically**, and learn independently
- Presents information that is rooted in India in the concepts taught and in features like **Know Our Mathematician, Did you Know, Story Time** and **Find Out.**
- Enables the learners to articulate their reasons behind a particular observation or conjectures through **hands-on activities/lab activities.**
- Follows the spiral approach to learning through features like **Icebreakers, Let's Recap** and **Work Exercises.**
- Equips the learners to explore multiple ways of solving a problem and understand situations/problems that can have multiple solutions using a variety of **in-text solved examples** and **questions.**
- Includes exercises that require the learners to formulate and create a variety of problems of their own using features like **Make Questions of Your Own** and **Oral Questions.**
- Questions/observations based on the **17 sustainable development goals** and developed by the United Nations reinforces the need for protection of environment, removal of social barriers.

NEW MATHS MATE

Classes 1 to 8

The revised edition of **New Maths Mate** aims to make mathematics even more relevant and interactive so that the learner learns to recognise and appreciate the subject and goes on to applying it while solving problems in their daily lives. It equips the learners with 21st century skills and conforms to the tenets of the National Education Policy (NEP) 2020.

A variety of learning styles have been incorporated in the series so that it caters to the learning needs of each learner. Ample opportunity for practice has been provided so that a learner can master the concept learnt and self-assess his/her progress. A self-assessment checklist given at the end of each book allows the learners to know where they stand in terms of the learning outcomes covered.

KEY FEATURES

- **Let's Recall**: Helps the learner to refresh the concepts learnt in previous chapters or grades
- **Let's Begin**: Provides introduction to the chapter
- **Error Alarm**: Makes the learner aware of the common mistakes they commit often along with the correct way of solving a problem
- **Fun Zone**: Provides fun-based learning by introducing real-life based scenarios to solve a given problem
- **Activity Zone**: Provides hands-on activities for the learners to perform to enhance their experiential learning
- **Mental Maths**: Enables the learners to perform mathematical problems faster by doing calculations "in their heads"
- **Olympiad Zone**: Includes questions involving logical reasoning and mathematical reasoning that hone higher-order thinking skills such as critical thinking, problem-solving skills, etc
- **Fun Time** and **special pages** in each book provide gamified and fun-based experience making way for peer-based learning in a collaborative and engaging classroom.

Understanding MATHEMATICS

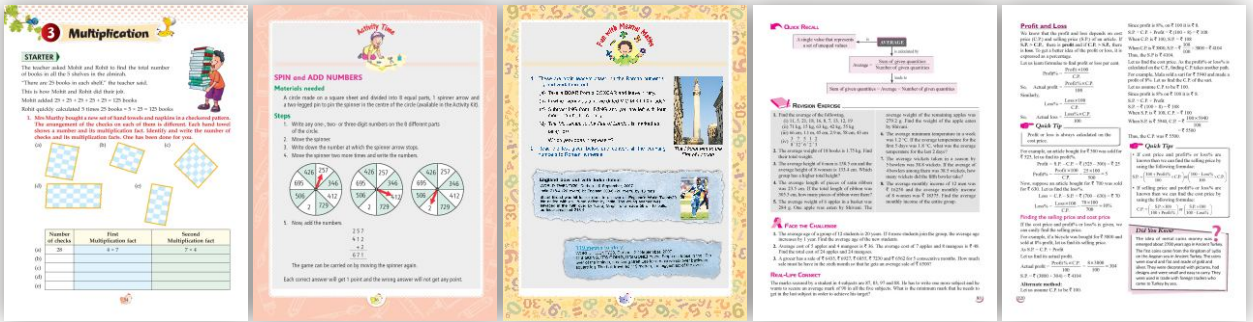

Primers A, B and 1 to 8

Understanding MATHEMATICS is a series of ten textbooks of mathematics for classes Primer A, Primer B, 1 to 8. This series is written after extensive research and analysis to help the students develop reasoning and thinking skills. The concepts are explained by connecting mathematics with real-life situations. The best way to master mathematics is by practicing. The questions in the exercises are graded from easy to complex based on the learning ability of the students.

KEY FEATURES

- **Starter:** Warm-up activity at the beginning of each chapter
- **Quick Recall:** Summary of the concepts studied in the chapter in a flow chart format
- **Real-Life Connect:** Application-based questions connecting mathematics with real-life situations
- **Maths and our Environment:** A blend of mathematics with Art, Language and Environmental Sciences
- **Let Us Revise:** Worksheet given at the end of each chapter to revise the concepts
- **Fun with Mental Maths/Mental Maths:** Questions to sharpen the mind by doing quick calculations
- **Activity Time/Lab Activities:** Hands-on learning to consolidate mathematical concepts
- **Quick Tips:** Quick and easy recapitulation of key concepts and new facts
- **Test Papers:** Questions given at the end of book to assess the student's performance
- **Activity Kit:** A kit comprising of materials to be used in the activities given inside the book
- **In This Chapter:** At the beginning of each chapter to make learning more focused
- **Did You Know?:** To provide additional facts related to the concepts
- **Revision Exercise:** After each chapter to provide questions related to all the concepts studied in the chapter
- **Face the Challenge:** At the end of each chapter to provide challenging questions
- **Unit Test Papers:** After each unit comprising of questions related to all concepts studied in the entire unit
- **Project work:** Encouraging the students to research and act by themselves as per their abilities and interests
- **Vedic Mathematics:** Enabling the students to practice techniques based on the Vedas for mental calculation to simplify numeric problems

My Best BOOK

An Innovative Approach to LIGHTEN the LEARNING LOAD

Classes 1 to 5

My Best Book is an integrated course with 8 books per class for Classes 1 to 5, offering well-graded, age-appropriate content for all subjects:

English, **Maths**, **EVS** (for Classes 1 and 2), **Science** and **SST** (for Classes 3 to 5)—as well as **Computer Science**, **General Knowledge** and **Value Education**.

The unique planning ensures that the child has to carry only one textbook to school every day.

The progression of learning is mapped to the NCERT syllabus and the National Curriculum Framework.

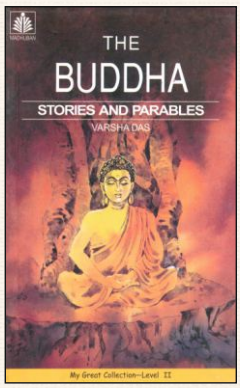

The books cover concepts in a well-graded fashion to ensure cross-curricular learning. The series incorporates new age theories of learning ranging from Revised Bloom's Taxonomy and Experiential/Constructivist Learning to Activity-Based Learning and the Visual-Auditory-Kinaesthetic (VAK) approach.
